

communiteer
the social good network

Our mission is to facilitate social impact via cross-sector collaboration.

We're building an online community where individuals, for-purpose organisations, and corporations connect and collaborate to amplify their collective impact through crowd-sourcing.

We would like to invite you, your organisation, and your members & supporters to join us in creating a truly inclusive and collaborative community through the use of technology.

How does it work?

We use technology as a force for good to facilitate social impact at scale.

Our online community is purpose-built to foster social participation and engagement by combining the technology behind social media platforms and online marketplaces.

Through the power of crowdsourcing, we harness our collective resources and divert them to where it's needed. Each organisation and each user contributes to the social good network by sharing stories, information, knowledge, connections, skills, opportunities and time. Our platform collates these 'resources' and distributes them to each user's news-feed based on their personal preferences and values. Users can then choose what they participate in and how they contribute to the social causes they believe in on and offline.

Causes

SOCIAL AWARENESS

We help individuals and organisations discover, learn and align themselves with the UN Sustainable Development Goals that they believe in.

Contributions

SOCIAL PARTICIPATION

We work with organisations to create opportunities for individuals to get involved that will contribute towards the UN Sustainable Development Goals.

Communities

SOCIAL INCLUSION

We enable values-aligned individuals and mission-aligned organisations to collaborate with one another through online communities.

Why join Communit eer?

We exist to strengthen the community sector and we work collaboratively across different stakeholder groups.

Your organisation will become part of the social good network where you'll have access to a greater volunteer pool, the means to promote your messages to a wider cohort of purposeful individuals, and the tools to develop deeper engagement with your supporters.

Your supporters can hear your inspiring stories, share their lived experiences, form communities, participate in discussions with like-minded individuals, and take immediate action to advance your organisation's cause by volunteering their skills, knowledge and time.

Join our social movement!

We invite your organisation and your members to join our growing community.

Registration is easy and you can setup your own community through our online platform in minutes.

We will provide your organisation with:

- Full access to our crowdsourcing platform;
- Technical support for you and your supporters;
- Action plans to engage your supporters virtually;
- Invitation to participate at our events and webinars;
- Templates to identify volunteering opportunities; and
- Impact reports based on the UN Sustainable Development Goals.

Together, we can turn scarcity into abundance and create a sustainable community sector.
